Search and Seizures

When it is determined based on searches that a person has violated a Board policy, administrative regulation, building rule, student conduct rule or personnel expectation, or the law, the person shall be subject to appropriate disciplinary action and a report to law enforcement may be made.

Student lockers, desks and other such property are owned by the school. The school exercises exclusive control over school property. Students should not expect privacy regarding items placed in or on school property because school property is subject to search at any time by school officials. Periodic, random searches of student lockers may be conducted in the discretion of the administration.

The following procedures will be used for conducting searches:

1. School officials may conduct a search if there is a reasonable basis to believe that the search will uncover evidence of a crime or rule violation. The search must be conducted in a reasonable manner under the circumstances.
2. Random searches of student lockers, desks, and other similar school property provided for use by students may be conducted in the discretion of the administration.
3. Drug or alcohol tests may be conducted on students based on reasonable suspicion.
4. Drug or alcohol tests may be conducted on a random basis for students participating in extracurricular activities, provided that: a) the student gave consent for testing in advance (attendance at or participation in the extracurricular activity may be withheld in the absence of consent), b) the testing actually be random, c) that the testing procedures limit any intrusion on student privacy, and provide for an appropriate level of confidentiality and accuracy, and d) that the response to positive tests take into consideration student safety and compliance with laws related to reporting and releasing students to law enforcement.
5. School officials may search offices and storage devices provided to or used by employees where permitted by law, such as where reasonable grounds exist for suspecting that a search will turn up evidence that the employee has committed work-related misconduct, or that a search is necessary for a non-investigatory work-related purpose, such as to retrieve a file.
6. Searches of the District's computer system may be conducted in the discretion of the administration at any time.

The following procedures will be used for the removal of personal property:

1. Illegal items or other items reasonably determined to be a threat to the safety of others or a threat to educational purposes may be seized by school officials. Any illegal drugs, firearm or dangerous weapon shall be confiscated and delivered to law enforcement as soon as

practicable. A personal safety or security device (such as a taser, mace or pepper spray) not previously approved by the Administration constitutes a “dangerous weapon.”

2. Items which have been or are reasonably expected to be used to disrupt or interfere with the educational process may be removed from student possession.

The District is not responsible for the security or safety of personal property which employees, students, or other building users may bring to school.
